KWIK FALL™

Proudly American.

Explore all Features

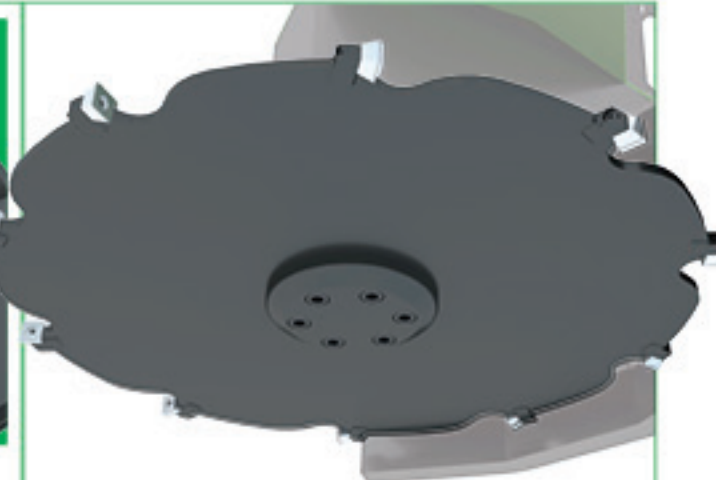

SUPER SPEEDY

What's the best way to remove cedars and other invasive trees? As quickly as possible. That's why you'll love the Kwik Fall™. It's everything you need to effortlessly slice through unwanted vegetation and start reclaiming your land.

BUILT TO TAKE A BEATING

A rugged, low maintenance design helps the Kwik Fall withstand the hit from falling trees. Features like the heavy-duty integrated tree deflector and 135-degree disc protection help keep you running until the job is done.

SUPERIOR DISC DESIGN

The cutting disc is made from abrasion-resistant steel to provide exceptional durability. It has a large 38-inch diameter from tip to tip, capable of producing a high amount of inertia to easily cut through thick trees.

14" CUTTING CAPACITY

BIG JOBS CALL FOR A TOUGH TREE SAW

Removing invasive trees can be a difficult task without the right tools. Make it easier with the Loftness Kwik Fall – the industry's toughest tree saw attachment for skid steers. We gave it a powerful hydraulic motor, a large cutting disc and premium-strength steel construction to turn your tree problem into a piece of cake.

BENT-AXIS PISTON MOTOR

A powerful bent-axis piston motor spins the cutting disc at high RPM, helping operators slice through trees up to 14 inches in diameter without stalling. It requires a skid steer with 26 to 45 GPM and up to 5000 PSI to operate.

LONG-LASTING TEETH

REVERSIBLE DESIGN

The durable carbide teeth used on the Kwik Fall are four sided, so they can be rotated several times before replacement is needed.

SINGLE-BOLT TOOTH MOUNTING

Each carbide tooth is mounted to the disc with a single bolt for fast, easy rotation or replacement.

The Kwik Fall comes standard with an industry-leading 2-year warranty.

SPECIFICATIONS

Model	38KFH
Overall Length	90" (2.3 m)
Overall Width	47.4" (1.2 m)
Cutting Disc Diameter	38" (0.97 m)
Number of Teeth	10
Cut Capacity	14" (0.4 m)
Weight	900 LBS (408.2 kg)
Hydraulic Flow Range	26-45 GPM up to 5,100 PSI

» The Kwik Fall's **tree deflector** has an angled design to guide falling trees away from the cab.

» An integrated guard provides **135 degrees of disc protection**.

» **Case drain protection** is included to help prevent damage to the motor's seals.

» Quickly mount the Kwik Fall to a skid steer or compact track loader with the **universal mount**.

DURABILITY RUNS DEEP WITH OUR FULL LINE OF EQUIPMENT

**MULCHING HEADS » BRUSH CUTTERS » DISC MULCHERS » FLAIL MOWERS
STUMP GRINDERS » HYDRAULIC COOLERS » MECHANICAL TRIMMERS**
