Designed for use on wheel loaders only. Bare plate mount is included.

* This is a minimum lift capacity recommendation; individual results may vary.

// Saves Time, Money and Back Aches

Never pick up rocks by hand again. The EZ Pick™ is a hydraulically powered skid steer rock picker attachment from Loftness that makes easy work of clearing rocks, boulders, stumps and debris. This patented design removes rocks as small as 2 inches in diameter, or as large as 2 feet — one of the widest ranges in the industry.

// FEATURES

360-Degree Reel:

The 360-degree reel offers bi-directional rotation and opens fully for dumping.

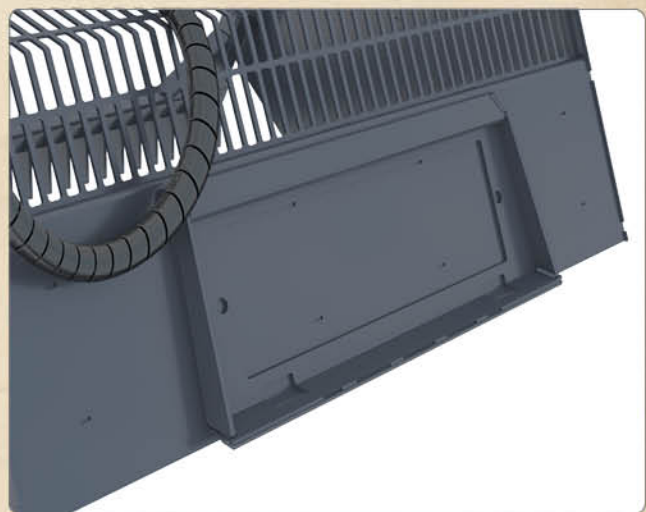

Heavy-Duty Tines:

The tines are solid 1-inch thick and made from high carbon steel for maximum durability.

Hydraulic Drive:

The hydraulic drive requires only 6 GPM of hydraulic flow to operate. The hydraulic motor drives a No. 60 HD roller chain.

Thick Back Plate:

Model 720 has a 1/4" thick back plate. Model 840 has a 5/16" back plate. Model 960 has a 1/2" back plate.
